

# METAL CUTTING SAW FROM STEELMAX®

## THE S14 METAL CUTTING SAW

### 14" BLADE DIAMETER WITH STABLE CAST IRON BASE

Pick up a Steelmax saw this morning, and it can pay for itself by the end of the day.

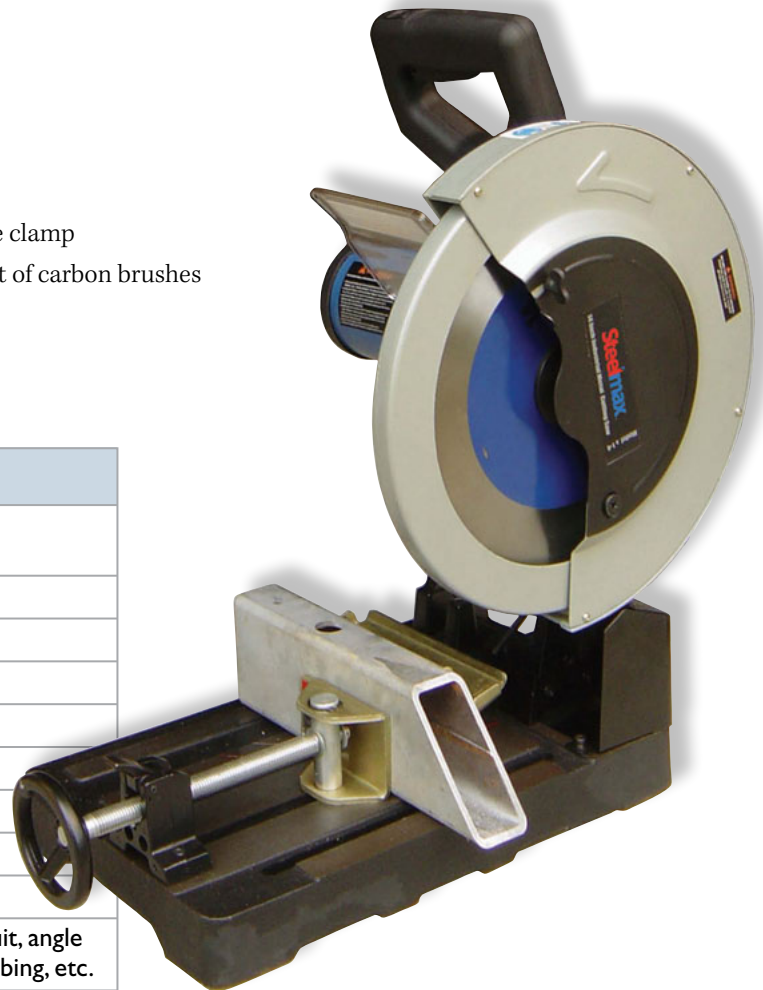

When a saw is engineered to work as efficiently as the Steelmax S14, your purchase pays immediate dividends. With its precise, fast, clean, burr-free, cool-to-touch cutting, further processing is eliminated, saving you expensive de-burring and further machining. Only Steelmax has a "flip plate" built onto its base that allows the S14 to securely hold round material, pipe and tubing so it doesn't come loose or turn when being cut – which could damage the material or blade. And its exclusive heavy cast iron base reduces vibration to extend blade life and provide more precise cutting.

#### FEATURES

- Mitering capability up to 45°
- Powerful 15 amp, 1750W motor
- 1450 rotations per minute
- Stable cast iron base
- Quick adjustment vise with innovative quick-pipe clamp
- Includes hearing and eye protection, and extra set of carbon brushes
- Pipe capacity up to 4-3/4"
- 1" Arbor Bore, chip collection tray
- Includes a 14" TCT mild steel cutting blade

Steelmax S14 Technical Specifications	
Cutting capacity	4-3/4" profile 1" solid
Weight	64 lbs
Blade diameter	14"
Arbor	1"
RPM	1450
Beveling/Mitering	Mitering/45°
Motor	120V or 230V / 1750W
Depth adjustment	2-position vise
Chip tray	Slide out
Applications	Pipe, plate, channel, conduit, angle iron, metal studs, rebar, tubing, etc.
Part number	<b>SM-S14</b> (120V/60Hz) <b>SM-S14-230</b> (230V/50Hz)
